1941-THE OTWELL IRIS FIELDS-1941

CARLINVILLE, ILLINOIS

U.S. Department of Agriculture

This is the home of my Grandmother—one hundred years ago. She and her four sons and five daughters, of which my father was the oldest, constituted the most religious family I have ever known. I have seen her go upon her knees and talk to the Lord in simple child-like faith, saying, "Now Lord, you gave me these nine children and you will have to help me take care of them, I can't do it without you." And not for a moment did she ever doubt. My father and mother built their home close by and raised eight children to maturity on 20 acres of stump land. I have seen my mother put the sugar bowl on the table for three months in succession without a grain of sugar in it. And we never knew we were poor. We learned to live on hard work and I love it yet. And only four minutes from this cabin I am sitting in my office out here on the farm—telling you about my Iris fields.

Fifty thousand people come each year to ponder upon these lovely acres. These fields of beauty are grown for you. They are kept and embellished for your happiness. They would not be half so beautiful, nor I half so happy, if you did not come to see us.

In this modest folder there is not one variety that I have not grown and tested for its health and beauty before offering it to you. And I do not see how I can spend the rest of my time to better advantage, than to send these lovely creations out all over the broad expanse of our land in the certainty that you too will catch the spirit I am trying to tell you about.

WILL B. OTWELL

Please preserve this folder. You are sure to need it before the year is over. Our fields have been greatly reduced in acreage but increased in finer varieties.

BIRD'S EYE VIEW OF 5000 WALNUT TREES

6 to 16 feet high, planted in 1935 by Will B. Otwell, Carlinville, Ill., founder of the **Otwell Tree Planting Club of America**. Rows quarter mile long. Beautiful beyond words to describe. Mr. Otwell says he would rather have a hundred forest trees growing in his honor than to have a marble statue high as the State House Dome.

For Your Information

I grow no flowers but Irises but I grow **them** by the millions.

Send me your orders soon as you make up your mind and I will ship at best time.

July, August, September, October and November are good planting months—the weather has lots to do with it.

If you live in far distant states, enclose 25 cents extra to help pay postage.

At prices quoted in this folder, all shipments go to you by **Parcels Post, Prepaid.**

Don't scold. That's the cheapest thing in the world. Write a courteous letter about any mistakes and you will get the same in reply.

Please look over the full page of Bargain Collections and see if some of them do not answer your requirements.

It is usually cheaper to buy that way, as we often take up hundreds of collections at one time.

Our Prices—We don't let others undersell us and we do not know of any firm that grows better stock. Everything is guaranteed to please you or your money will be refunded.

Terms—All orders are cash. No shipments made C. O. D.

Turn to page 7 and read all about my reddest collection.

Other growers may have more **Reds** than I, but I do not know who **they are.**

12 of a Kind—Where the folder quotes Irises at one dollar per dozen, it means a dozen of one kind. To get the dozen rate it is necessary to order a dozen of one kind.

Iris Beauty—Plant fewer sorts and plant more of one sort if you wish to have real Iris Beauty. Plant at least three of a kind and better yet, a dozen of each kind.

Please drive a little slower. Last year there were 34,000 people killed by automobiles in the U. S. Won't you please be careful to drive a little slower when you enter the Iris Fields?

Read about the **Red** Collection on page 7.

One of the sweetest visitors that has ever graced our flower fields came out from the Institution for the Blind at Jacksonville, Illinois. She smelled them, she caressed them, she called them pretty names and her exuberant happiness made us all ashamed of ourselves.

Will B. Otwell

This is the way they come to the Otwell Iris Fields. Last year there were cars from 15 states in one day. Of course **one way traffic** must be observed. There is a perfectly good cinder road through the fields so that wet weather doesn't cut much figure. Every precaution is taken to safeguard the comfort and safety of our visitors. Reckless driving is out of place anywhere, but here in the Iris Fields there are people everywhere. No one with a grain of sense will drive fast in a crowd.

Fast driving is not a sign of **good** driving. It often happens that the fastest driver has the least to do when he gets there. Always, here and elsewhere, take thought for the safety and comfort of others. Flowers and happiness go hand in hand. Leave your gourches and scoldings outside the fields. Associate with sunshine and good wishes for everybody. First thing you know your life will undergo a great and beautiful change. **You will start to live.** You will attract good people to you. You will realize that to give of your talents to others is the greatest blessing that has ever come to anyone.

I never knew of so much happiness and good cheer and good wishes and joyous **life**—as attends the great crowds of lovely people, that come to the Otwell Iris Fields in May. You too are welcome—thrice welcome, without money or without price.

No admission fee. Nothing to pay—just thank the good Lord that you are alive and living in the garden spot of the world.
